REVIEW OF MARKETS

FINANCIAL AND COMMERCIAL

Stocks, Money, Exchange, Bonds, Grain, Cotton, Provisions, Etc.

New York, Feb. 14.—Stocks to-day advanced moderately above the prices prevailing before the triple holiday. Commission house business was much restricted as the severe storm had delayed malf orders and kept away many customers. The attendance on the Stock Exchange was diminished and prices receded fractionally during the early trading. The London market, too, was dull, because of storms throughout England, and 'Yankee' rails, which showed weakness before our opening, because of the bilizard, were subsequently bought for London account.

Burlington was a most prominent stock for strength on a rumor that!a refunding plan would be put through at to-morrow's meeting, although the story lacked confirmation. The other Grangers were sympathetically strong. Weather conditions were responsible for lifting the price of the anthracite Coalers and Rubber. The improving tone which became noticeable before noon, spread to the rest of the list as a rule, and values were generally enhanced.

Other features of strength were the local traction shares and the Pacifics and Pennsylvania. The effort to secure dividend payments through legal proceedings was responsible for some advance in Pittsburg, C., C., C. and St. Louis. A number of Industrials which showed early weakness railled considerably. Included in this category were People's Gas, Federal Steel, Sugar and Tobacco. Prices continued to harden, with but temporary periods of hesitation, and the closing was strong.

The bond market ruled irregular during the forenoon, but subsequently hardened under the influence of a good demand of the active lines. Total sales, \$2,795,000.

U. S. new 4's coupon advanced ½ in the bid price.

new 4's coupon advanced 1/3 in

NEW YORK COTTON MARKET.

New York, Feb. 14.—The market for cotton futures opened firm in tone, with initial sales 8 to 11 points above the final figures of Saturday. All through the session the feeling was favorable to the staple and, with the exception of occasional spurts of profit taking, under which prices went off a point of two, prices held well up to the opening figures. Speculation was on generous lines and general. During the early portion of the session Liverpool and Continental houses were heavy buyers, giving special attention to the nearer deliveries, reported to be for the covering of old short accounts. Commission houses were identified closely with the buying movement, as were local shorts. Southern representatives had comparatively few orders, but these for the most part were for the purchase of May and August options. The close was steady at a net rise of 4 to 6 points. The dominating influences of the day were strong English cables, small receipts at the interior towns and ports, and bad weather news from the cotton region. Even the more confident bulls were surprised by the marked strength of the Liverpool market, and had not calculated on such small receipts as official dispatches indicated. Futures in the English market had moved up four to five and a half points over our holiday and spot cotton had advanced 3-32d., with a brisk trade in progress at the better figures. Private cables attributed the improvement in that market to heavy covering of shorts on the American storm news, and the failure of a prominent Liverpool spot cotton firm, which pretty much all the season had been persistently sticking to the bear side.
